PROFILE

Senior Product Designer with 10+ years of experience crafting user-centered products for fintech, travel, and telecom. Increasingly, I'm also a designer who ships: over the past year I've used AI-assisted development (Claude Code and the MCP ecosystem) to design, build, and launch products end-to-end on my own, including new revenue directions, SEO-driven landing pages, automated content pipelines, and full Chrome extensions.

I pair classic product-design depth (user research, UX, design systems, A/B testing) with the rare ability to turn ideas into working, shipped software. Comfortable as the only designer on a team or as a one-person product and build unit, building from zero to one as well as improving products with millions of users.

PROFESSIONAL SKILLS

- **Product Design:** Product design • UI design • Visual design • UX research • Interaction design • Design systems • Prototyping • Mobile app design • Responsive desktop web • End-to-end design
- **AI-Native Workflow:** AI-assisted design & prototyping • Claude Code • Cursor • Figma MCP • Google Analytics MCP • Higgsfield MCP • Mobbin MCP • Automation
- **Build / Front-end:** HTML • CSS • JavaScript • React • Node.js / Express • PostgreSQL / SQL • Git / GitHub • Full-stack (solo)
- **Research & Data:** User interviews • Usability testing • Customer development • JTBD • CJM • A/B testing • Product analytics • Data analytics • KPIs • Data-driven decision-making
- **Product & Ways of Working:** 0→1 / MVP • B2B SaaS • Enterprise • E-commerce • Cross-functional collaboration • Process improvement • Agile/Scrum • Lean UX • Communication

WORK EXPERIENCE

Founder & Product Designer **Fillwise.ai** 2025-Present

Designing and shipping products end-to-end with AI-assisted development (Claude Code + MCP ecosystem), from research and UX through to live production code.

- Built **Fillwise.ai** (AI form-filling Chrome extension) from zero to its first paying customers, using it as a testbed for an AI design-to-code workflow (Figma AI + Figma MCP + Claude Code) fillwise.ai.
- Own the full stack as a solo founder: MV3 Chrome extension (React side panel), Node/Express + PostgreSQL backend, Google OAuth, Stripe subscriptions and usage quotas.
- Shipped the hardest part of the product: filling flat PDFs that have no form fields at all, by reading the document's own text layer and placing values by position, plus an editor where users can adjust anything before download.
- Run growth myself: keyword research, a blog and feature-page content system, and discovery calls with prospects in travel, insurance and finance.

Product Designer | **Alfa Bank / Alfa Travel** 2023 — 2025

Owned product design for the bank's entire Travel direction (alfabank.ru/travel). Alfa Bank is Russia's largest private bank: 37M+ retail customers, \$127B in assets.

- Led design for the whole Travel direction as the sole designer for 12 months, then onboarded and mentored a mid-level designer as the team grew.
- Reduced customer support inquiries by **74%** by designing an intuitive booking-modification flow.
- Developed ancillary services for flight bookings (baggage, seat selection), increasing average check by **~16%**.
- Redesigned the main landing page with partner banners, generating additional revenue streams.
- Contributed to the innovation team for a complete Alfa Bank mobile app redesign initiative.

Product Designer | **MTS** 2022 — 2023

MTS is Russia's leading telecom operator with \$7.9B annual revenue and 81.9M subscribers

- Single-handedly built Russia's first online TV advertising purchase service from scratch to first paying customers in ~12 months, as the only designer in a 20-person team.
- Replaced manual Excel workflows with an ad-slot selection interface offering instant pricing visibility (~60% efficiency gain).
- Owned end-to-end product design for the complex B2B media-planning and advertising ecosystem.
- Conducted dozens of interviews with in-house media planners to validate product-market fit.

Senior Product Designer | Aloha Mobile 2020 — 2022

A' Design Award-winning private browser & VPN for iOS, Android, Windows and macOS (tens of millions of downloads).

- Worked on the redesign of the Aloha VPN app across **iOS and Android**, from UX research to shipped UI.
- Designed and launched **Aloha Browser for macOS** from concept to market release.
- Shipped new features and improvements for the main Aloha Browser (iOS/Android).
- Won the **A' Design Award 2021** (International Design Competition) with the team.

Lead Product Designer | Rick.ai 2017 — 2020

Analytics platform startup with AI capabilities for enterprise clients

- Lead designer at analytics service startup with AI capabilities
- Designed automated analytics platform that analyzes hundreds of landing pages for enterprise clients
- Created system that identifies best-performing variations and generates insight reports
- Conducted 200+ user interviews and 50+ usability tests to validate hypotheses
- Developed comprehensive design framework for complex data visualization

Product Designer | OneTwoTrip 2015 — 2017

Leading Russian travel platform with 11M monthly users

- Designed user-friendly mobile app for travel booking
- Led website redesign initiatives
- Introduced new categories to enhance user experience

UI/UX Designer | Eldorado 2013 — 2015

Russia's largest retail company in consumer electronics and appliances, *~560 stores in 260 cities*

- Developed marketing materials and landing pages
- Created UI/UX design solutions to enhance digital assets
- Designed promotional content for digital channels

Earlier Side Projects

- **Rewriting.ai:** Content uniqueness verification service (pre-AI era). Combined article rewriting with Google uniqueness analysis; monetized with multiple paying clients.
- **Dayrows.com:** Job board connecting entry-level IT specialists with employers; insights into two-sided marketplace dynamics.

Education

- **RANEPA (Russian Presidential Academy of National Economy and Public Administration):** Information Technology in Public Administration, 2008-2013. Graduated with Distinction (Red Diploma).
- **Y Combinator Startup School:** 10-week entrepreneurship program, 2019.
- **Product Heroes:** Product Management Course by Ilya Krasinsky, 2018.
- **British Higher School of Art & Design, Moscow:** UX & UI Design, 2014.

Awards

- **A' Design Award 2021:** International Design Competition (with the Aloha Mobile team).
